Summary

Fullstack Software Engineer with 3.1 years of experience, including major contributions to the Suada EdTech platform. Experienced in React, TypeScript, Redux, Apollo GraphQL, Node.js, MongoDB, and building scalable frontend architectures. Skilled in delivering complex product features, analytics systems, cross-team collaboration, and maintaining high-quality codebases.

Experience

Software Engineer

Jan 2023 – Jan 2026

Suada, Remote

- Developed and maintained production React applications using React.js, Hooks, Redux, and TypeScript.
- Integrated and optimized GraphQL APIs using Apollo Client.
- Improved UI/UX, worked on component libraries, and contributed heavily to Storybook systems.
- Published Suada's component library as a separate public repository for global reuse (suada-components).
- Contributed to Suada's deployment to Microsoft Marketplace and Azure ecosystem.

Major Features Delivered

- Student-to-student messaging system in the Students Portal.
- Analytics services: aggregation pipelines, business insights, dashboards.
- Theme Customization System for enterprise-level branding.
- Quiz functionality: scoring, flows, UI, logic, backend integration.
- Course Pinning system.
- Performance optimizations across backend and frontend.

Skills

React.js
TypeScript
Redux
Apollo GraphQL
Styled Components
Storybook
Component Architecture
Node.js
Express.js
NestJS
MongoDB
REST APIs
GraphQL
Socket.io
Git/GitHub
Microservices
Analytics Services
UI/UX Implementation
