

Giorgi Tchitchileishvili — Software Engineer

Tbilisi, Georgia

GitHub: github.com/chichileishvili

LinkedIn: linkedin.com/in/giorgi-tchitchileishvili

Professional Summary

Full-stack Software Engineer with 2.5 years of experience, including major contributions to the Suada EdTech platform. Experienced in React, TypeScript, Redux, Apollo GraphQL, Node.js, MongoDB, and building scalable front-end architectures. Skilled in delivering complex product features, analytics systems, cross-team collaboration, and maintaining high-quality codebases.

Experience

Software Engineer — Suada (Jul 2023 – Present, Remote)

Key Responsibilities & Achievements:

- Developed and maintained production React applications using React.js, Hooks, Redux, and TypeScript.
- Integrated and optimized GraphQL APIs using Apollo Client.
- Improved UI/UX, worked on component libraries, and contributed heavily to Storybook systems.
- Published Suada's component library as a separate public repository for global reuse: `suada-components`
- Contributed to Suada's deployment to Microsoft Marketplace and Azure ecosystem.

Major Features Delivered:

- Implemented **student-to-student messaging system** in the Students Portal.
- Built **complex analytics services** — aggregation pipelines, business insights, dashboards.
- Created **Theme Customization System** enabling enterprise-level branding control.
- Implemented **Quiz functionality**: scoring, flows, UI, logic, and backend integration.
- Developed **Course Pinning** to allow prioritization of content.
- Performance optimizations across backend and frontend systems.

Projects

Jobify App (MERN)

Live: jobify-app-41eq.onrender.com

GitHub: github.com/chichileishvili/jobify-app

A job-hunting platform with authentication, job tracking, statistics, and filtering.

Skills

React.js, TypeScript, Redux.js, Apollo GraphQL, Styled Components, Storybook, Component Architecture

Node.js, Express.js, NestJS, MongoDB, REST APIs, GraphQL

Socket.io, Git/GitHub, Microservices, Analytics Services, UI/UX Implementation

Agile workflow, Remote collaboration
